RECOGNIZING PUBLIC HEALTH HEROES WORKING TIRELESSLY
BEHIND THE SCENES TO KEEP COMMUNITIES HEALTHY AND SAFE

KENDRA HABING

Decision Support Advisor

HOW I'M HELPING TO KEEP COMMUNITIES SAFE RIGHT NOW

Managing a multi-disciplinary COVID-19 data management team for Halton Region.

MY MESSAGE TO THE PUBLIC DURING THESE CHALLENGING TIMES

"Life isn't about waiting for the storm to pass. It's about learning how to dance in the rain." The way that public health has learned to work together in these times of change has showed how amazing all the staff are at "dancing in the rain", and it has been a pleasure to see and be a part of."

MY ROLE IN PUBLIC HEALTH

What I'm championing every day to keep communities healthy:

Tirelessly providing accurate and regular updated COVID-19 data information for provincial partners, Halton Region Health Department and local leaders while supporting the wellbeing of my team.

What I would like to see for the future of public health:

I would love to see health equity continually incorporated into public health strategies and programs, removing systemic barriers where possible. The ideal state would also have data used consistently and communicated effectively to inform decision-makers.
