

# #PublicHealthHeroes

## Duty Desk

### HOW WE ARE HELPING TO KEEP COMMUNITIES SAFE RIGHT NOW

We provide advice and support to individuals and businesses on implementing and maintaining public health measures, support employers of temporary farm workers in developing isolation plans for the arrival of foreign workers, oversee infection control implementation and more. We respond to enquiries and questions from the public.

### OUR MESSAGE TO THE PUBLIC DURING THESE CHALLENGING TIMES

Stay home- practice physical distancing – and wash those hands! Now as businesses open: maintain physical distancing and public health measures to prevent the spread of Covid-19.

Eastern Ontario Health Unit

## OUR ROLE IN PUBLIC HEALTH

### What we champion every day to keep communities healthy:

Daily, we are front line, face-to-face liaisons for a variety of businesses throughout our community in different environments. We investigate complaints and issues related to food, water, and air quality. We strive to empower the community with education and knowledge – so that we can collaboratively keep our communities safe.

### What we would like to see for the future of public health:

See public health units better supported to respond and provide more tailored services to their unique communities and populations
