

# #PublicHealthHeroes

RECOGNIZING PUBLIC HEALTH HEROES WORKING TIRELESSLY  
BEHIND THE SCENES TO KEEP COMMUNITIES HEALTHY AND SAFE

## Oral Health Team

### HOW WE ARE HELPING TO KEEP COMMUNITIES SAFE RIGHT NOW

We are supporting the oral and overall health of the community during these difficult times. We put clients in direct communication with dental professionals to provide over the phone consultations and pharmacology. We direct, collaborate and facilitate access to oral health programs and we keep our doors open for dental emergencies while keeping staff and clients safe.

### OUR MESSAGE TO THE PUBLIC DURING THESE CHALLENGING TIMES

*Self care is important  
now more than ever; our  
oral health team  
continues to support and  
guide you with a smile!*

Eastern Ontario Health Unit

## OUR ROLE IN PUBLIC HEALTH

### What we champion every day to keep communities healthy:

We provide dental services to a variety of clients, from pre-school children to school-aged children, adults and seniors. We also offer frequent communication with clients in need and use a team collaboration approach to manage cases to provide best options for clients.

### What we would like to see for the future of public health:

We would like to see increased collaboration and communication within the healthcare community. This would enable us to share our knowledge and help each other adopt best practices for infection control to keep everyone in the community healthy and safe.
